2020 Summer
Online Courses Available  cte.elac.edu
Summer Starts June 15th, 2020
Dear Students,

Welcome to East Los Angeles College

With COVID-19 creating so much uncertainty across the world, we are working diligently to help address the many challenges facing our students, our college, and our community. Our primary consideration is the health and safety of our community. We have temporarily transitioned all of our courses to a virtual learning environment.

Nevertheless, we are evermore dedicated to helping our students stay on the path towards achieving their educational goals. Our students can continue to pursue their educational goals by enrolling in an online course with as little disruption as possible. Please remember that East Los Angeles College is here to serve the needs of our community. Stay safe!
East Los Angeles College empowers students to achieve their educational goals, to expand their individual potential, and to successfully pursue their aspirations for a better future for themselves, their community and the world.

ADULT AND CONTINUING EDUCATION
(323) 415-5400
Courses shown in this “Noncredit” section provide adults with skills that are critical to their ability to succeed in college or on the job. These courses help students learn English, learn to read and write, prepare for the GED (General Educational Development) test, gain American citizenship, and learn a job skill. All of the courses and services are free. Because these courses are noncredit, none of the courses provides units and cannot be counted towards a degree.

ACADEMIC PREPARATION/GED
Academic Preparation courses are designed for students who wish to improve reading, writing, math, and study skills before enrolling in college-level courses for credit. These courses also prepare students to take the GED test.

ESL CLASSES
The ESL program consists of four core ESL levels and elective offerings which include conversation classes and a variety of workshops. Certificates of Completion are offered if the student successfully completes core sections by meeting certain criteria. The ESL program can assist students to improve their English skills in order to live in the U.S.A. and also to prepare to transfer to a credit English class.

CITIZENSHIP CLASSES
Citizenship courses are designed to prepare students to take the U.S. citizenship exam. Instruction is provided in the areas of government, current events, test-taking strategies, and appropriate English Skills.

NONCREDIT LABORATORY
The Noncredit Laboratory includes a computer laboratory, a basic skills faculty member, and tutors to assist you. Internet access for research and study as well as programs for reading skills are available on the computers.

Real world application of Career Ed. skills. Doing it for the cause!

Transitioning to Online Learning

The Theatre Arts Department has had numerous special guests in our online classes from the Entertainment Industry, as well as specialty virtual workshops & seminars.

- Certificate Orientation
- Theatre Arts Town Hall
- Virtual Enrollment Table
- Mentor Meetings
- Online Productions

The PE Theatre club will be holding a virtual version of the annual East Fringe on June 12th to gather the theater community, celebrate our graduates, and share theater/art.

The Costume Program received donated sewing machines from Singer Sewing Company. Students are able to continue classwork in sewing courses in Theatre & Non Credit with the generous donation of machines. Thank you to the Theatre staff for distributing the much needed machines to our students!

Center Theatre Group & ELAC Theatre Arts are partnering to deliver summer sessions of TA 100 Intro. to Theater with guest lecturers from the CTG staff with enhanced content from the CTG archives. So much more to come this Fall!

CAREER PATHWAYS
EARLY ROAD MAPS FOR SUCCESS

Our programs offer a clear Career Pathway. Using educational road maps that outline an aligned sequence of courses. This helps better prepare students, for college and career transitions in specific industry sectors.

FREE DUAL ENROLLMENT FOR YOUNG STUDENTS

ELAC’s dual enrollment program has partnerships with LAUSD and MUSD which enables the college to offer multiple levels of free courses for middle & High School students. Many students are using dual enrollment to cut the time they need to spend in college, while parents see them as a great real money saver.

HERE ARE SOME BENEFITS OF DUAL ENROLLMENT:

• Less time required after high school to finish a college degree
• Provides students with a head start on the college experience
• Dual-enrollment classes often save students money on tuition
• Students have access to college libraries and resources
• Grades earned become part of the student’s permanent transcript
• Students may be able to transfer credits earned to a four-year school
• Students may explore careers or fields of study that help them choose a major later
• Students may choose from classes not currently available at their high school

PREPARING TODAY FOR SUCCESS

Students learn critical workplace skills, explore careers options, earn credits that will apply towards Industry skilled certificates, Associates degrees, employment, or internships. In some cases credits are earned towards a four-year degree when taking UC/CSU University transferable courses.
Work Base Learning

LEARN WHILE YOU EARN

Work-based learning stresses career preparation and application. It helps students connect school to the world of work and future career opportunities. Career preparation activities integrate academic and technical skills learned in the classroom with work-based skills that prepare students for further training and/or a career.

Here is how work-based learning is incorporated:

- Apprenticeships
- Career Fairs
- Field Studies
- Guest Speakers
- Job Shadows
- Service Learning
- Student Internships
CLOUD COMPUTING

The Certificate of Achievement provides students with a solid foundation of cloud computing technologies and provides them with the understanding required to effectively evaluate and assess the business and technical benefits of cloud computing and cloud applications.

Areas of specialty lead into careers including software development, project management, system analysis, and maintenance among other areas. Cloud Computing has become an area of high demand in the labor market.

The Department of Architecture at East Los Angeles College is the most extensive in Southern California in terms of course offerings, programs, and faculty.

The department is committed to provide its students with the most relevant and highest level of professional education in the field of architecture and to prepare them to the societal, cultural, and environmental challenges that they will face in their careers.

Every year, a large number of our students transfer to a local university program such as USC, Woodbury University, Art Center, New School of Design, SCI-Arc, or Cal Poly Pomona.

An increasing number of our students also transfer to out of state schools and in particular to East Coast institutions such as Pratt, Cooper Union, Syracuse, University of Pennsylvania, and Illinois Institute of Technology to name a few.
