1. Open a Chrome browser page
2. Type "chrome://flags" in browser
3. In the search type "SameSite by default cookies"
4. Click on the Default drop down menu
5. Click Disabled
6. Click Relaunch
7. Close out Google Chrome and reopen.

If users are still seeing the error, have the user update their Chrome browser and then attempt to use the workaround, or use a different browser. TouchNet currently supports Chrome, Firefox, Safari, and Edge. TouchNet no longer supports IE.
