Spring has Sprung

Majors Fair 2017

On November 9, 2017, the quad between E3 and E7 was bustling with movement and colors. Over 400 students walked through the circus theme Majors Fair. The Career & Workforce Development Center (CWDC) and the Continuing Education & Workforce Development Center collaborated to give students an opportunity to learn about various certificates and degrees offered through multiple departments.

The early birds were rewarded with a delicious free lunch! The Majors Fair is meant to showcase all of the majors ELAC has to offer so that students are more informed about their options.

Not only was this fair held at our main campus, but it was also held at the South Gate Campus where over 300 students attended.

Remember to declare a major by 15 units and visit our center if you need assistance!

**Career Panel**

Career & Workforce Development hosted a Career Panel for multiple Adelante FYE Counseling 20 sections in Fall 2017. Young professionals from various fields took time out of their busy schedules to speak about their educational and career journeys. Healthcare Management, Psychology, Law, Government, and Urban Planning were among the fields represented. Students had the opportunity to ask questions and meet with the panelists one-on-one at the end of the panel. Many students highlighted that they appreciated how relatable the panelists were. Some of the panelists are community college alumni.

**NOTE FROM THE DIRECTOR:**

Happy New Year and start of a new semester! Our center has seen quite a few changes since the beginning of Fall 2017. If you visit our office, you will notice that it looks different. We have revamped the inside to include more space for counseling appointments in order to better serve our students. If you plan to make an appointment, walk to the right side of the center after entering for assistance. We look forward to seeing you soon!
