Have you always enjoyed designing and expressing your creativity? Consider architecture, a profession where you can create beautiful and functional buildings, interiors and landscapes as well as earn a respectable income.

ELAC students develop and gain skills and learn to use tools to generate drawing and construction documents. Students create realistic 3-dimensional models to demonstrate their knowledge of design. ELAC has the latest computer-aided design software and systems so students can conceptualize directly on the computer, visualize projects before they are built, produce digital portfolios and publish on the Internet. The ELAC Department of Architecture provides a creative, dynamic setting where each individual can realize their full potential.
Success = Great Teachers

The Department of Architecture staffed by the experienced licensed architects, designers, and technicians, produces professionals in architecture and interior design.

Success = High Tech Classrooms

Classroom spaces are equipped with modern computer systems. A complete model construction and computer-aided design and planning program is provided for students, and the vocational training program includes the latest releases of AutoCAD 2023, Revit, Navisworks, BIM 360, and SketchUp. The architecture and interior design programs in the Department of Architecture provide the student with the experience of working with cutting-edge design tools.

Certificate and Associate degrees are offered in Architectural Drafting and Architectural Computer Aided Design preparing graduates for jobs in architecture, engineering, construction and other related businesses as well as in government and military service.

Success = University Transfer

An ELAC Associates Degree can be completed in two years. ELAC graduates can transfer to a university and complete a bachelor’s degree in architecture or a related field. Many ELAC architecture faculty members serve as advisors and provide support for students who wish to transfer to a university.

Success Costs Less @ ELAC

Tuition is low, less than $400 per semester for a full-time student who is a California resident. Financial aid, scholarships, and grants are available to help support students.ELAC pays all professional fees and other expenses not covered by financial aid, scholarships, or grants.

Success = University Transfer

An ELAC Associates Degree prepares students for transfer to a university. ELAC architecture students have the opportunity to transfer to top universities in California and beyond.

Success = Employment Opportunities

ELAC’s Architecture program provides students with the opportunity to gain hands-on experience in the field. Many students work while completing their education, learning while they are earning.

Success = Career Connections

ELAC is WASC Accredited
