René left California State University, Long Beach, after his freshman year. He needed a nurturing academic environment closer to home. René remembered enjoying Chicana(o) Studies classes he took at ELAC’s Introduction to Criminal Justice taught by LAPD commander Mel Stevenson and was inspired to become a police officer. Two years later, René is ready to attend the police academy and perhaps continue his education in criminal justice.

“I served as the vice president of the AJ Club at South Gate,” René says. “I liked the opportunity to serve my community. One of the best events we sponsored was the Christmas food drive to help people living in Maravilla project—club members gave away 75 boxes of food complete with a turkey. We learned that a lot of abused children are taken to jail for their protection before being sent to a foster home—and Christmas is one of the busiest times of the year. The AJ Club collected more than 300 toys so these kids would have something to play with and comfort them while they were in jail. It made all of us feel great and we realized how good it is to help people in our community.”

IMPORTANT INFORMATION ON COMPUTER COURSES
1. Students are REQUIRED to enroll in one computer lab section for EACH regular computer art course. (Example: If you take Art 633, you are REQUIRED to enroll in one section of Art 633A. If you enroll in Art 633 and Art 645, you will be REQUIRED to enroll in one section of Art 633 and one section of Art 845).
2. Students should be sure to enroll in a lab section that is taught in the same room as their regular computer art course.
3. These courses all assume that students have at least a basic knowledge of computers.
4. Computer art lab courses are listed under the following numbers: Art 638, Art 845, Art 846. If the student finds that he/she has exceeded the maximum number of repeats for any of these courses, he/she may enroll in any of the other art lab courses that meet his/her location and time needs.

## BUSINESS ADMINISTRATION

Ka Wai Lo was born in Hong Kong and chose to come to America as an international student because he has family members who live nearby and they told him about ELAC. After attending college for about a year, he got a job in the International Student Office assisting other Chinese students to acclimate to attending college in the United States. Ka Wai values the friendly atmosphere and extracurricular activities that allow students to get to know each other. He has applied to California State Polytechnic University, Pomona, and hopes to transfer this fall to pursue a major in business systems. *My favorite teachers have taught me problem solving by showing me how to research an issue and then to think and write critically about my conclusions. I was surprised when my Asian-American Studies instructor, Mr. Ong, discussed the history of Asians in this country. It was interesting to learn about how immigrants had to struggle to become part of American society. Accounting is another subject I enjoyed. Solving math problems is much easier for me than memorizing facts.*

The following online beginning course will provide training in proper keyboarding techniques and use of the computer. Microsoft Word 2010 will be used to produce letters, envelopes, tables, memorandums and reports.

This course will teach keyboarding by touch and the fundamental of Word 2010. Enrolling students are expected to have access to a PC with Internet and email capabilities. For students without a home computer, the course can be taken at the South Gate Educational Center (Room SG-122), 2340 Firestone Blvd., South Gate, CA 90280, or for those students closer to ELAC’s main campus, in the computer lab located in E7-418 (during scheduled hours). Orientation sessions will be held at the following times for students (enrolled or adding) to learn what the course is about and how it will be conducted.

Wednesday, August 29, 2012
7:00 p.m. – 8:00 p.m.
South Gate Campus, Rm. SG-122

Saturday, September 1, 2012
11:00 a.m. – 12:00 p.m.
ELAC Campus, E7-418

If you cannot attend one of these scheduled orientation sessions, contact the instructor, Elaine Shibata, at shibatey@elac.edu or call (323) 265-8954 for additional information.

### Engineering, Civil

**Engineering, Civil 121**

**Plane Surveying I**

- **Prerequisite:** Math 241 or a course in Trigonometry.
- **Advisory:** CE 122 should be taken concurrently.

**Offered Fall Semester Only.**

Required in all Civil Engineering transfer programs except at UCR and UCL.

### Engineering, Electrical Technology

**Engineering, Electrical Technology 120**

**DC Circuits**

- **Prerequisite:** Math 125 and GE 102. OFFERED FALL SEMESTER ONLY.
- **Note:** Required of all Engineering Technology and Production Technology students transferring to CSULA, Cal Poly Pomona and CSULB. Highly recommended for all Engineering students planning to take EE 220.

### Engineering, General

**Engineering, General 101**

**Introduction to Science, Engineering and Technology**

- **Note:** Required of all Engineering, Engineering Technology, Production Technology, CAD and CADD Certificate students. Preview of the engineering and technology professions.

**Offered Fall Semester Only.**

- **Prerequisite:** Math 115.

### Engineering, General 102

**Engineering Problem Solving**

- **Prerequisite:** Mathematics 115.

**Engineering Graphics**

- **Prerequisite:** Mathematics 115.

**Programming for Engineers**

- **Prerequisite:** GE 102 and Math 261. OFFERED FALL SEMESTER ONLY.

This core course is required for all Engineering majors.

**Note:** Also fulfills the computer programming requirement for the CAD/CADD certificate. Includes lecture and hands-on computer laboratory.

Percy immigrated to the United States from southern China six years ago with his family. He enrolled at ELAC and tackled improving his English skills by taking Level 6 ESL (English as a Second Language) taught by Lily Gong. Percy speaks four languages, Mandarin, Cantonese, the Emping dialect and English, plus a few phrases in Spanish. Ms. Gong became Percy’s mentor, selecting him to help tutor students in her non-credit courses. He particularly enjoys helping older students because they are eager for knowledge, complete all the homework and attend class regularly. Teaching others helps Percy to appreciate his own progress.

“I enjoyed the science and math courses I’ve taken at ELAC, but at first I struggled with physics because I had not taken calculus classes in China. I enrolled in calculus and that helped me understand the science courses. Jose Ramirez, my engineering instructor, has encouraged me to become an electrical engineer. He not only teaches us engineering, but also how engineers contribute to the economy of the country. I also really like my chemistry teacher Mr. Khuu. He is so friendly that he made the subject very interesting, plus he encouraged me to continue my science education. I have applied to the University of California, both the San Diego and Santa Barbara campuses.”

HUIYUAN DAI

Huiyuan Dai is an international student from Beijing, China. She chose ELAC so she could improve her English and save tuition money before transferring to a university. She hopes to transfer to University of California, Berkeley, or UCLA. She loves her science courses, especially chemistry and physics. Huiyuan likes the labs best because she can see for herself what happens with each experiment.

“The best part of attending ELAC is the friendly professors and students,” Huiyuan says. “My friends and I have built study groups that help us master each subject. The hardest courses for me are English language courses. Though I took English classes at my Chinese high school we mostly learned vocabulary and didn’t have the experience of reading and speaking. When I started my English 101 class, I was a C student. Gradually I improved because my teacher, Mr. Joseph, was very helpful and encouraged me to keep trying. I was very proud to finally earn an A in his class.”
ENGLISH TUTORING

The Writing Center, located in F5-104, offers tutoring, word processing, and Internet access for students in all disciplines. Students may improve their writing and thinking skills through one-on-one tutoring sessions, group workshops, and grammar assistance programs. Walk-in and scheduled appointments are available; students are also welcome to our Conversation Lab where they can improve their listening and speaking skills in a relaxed environment.

THE WRITING CENTER HOURS ARE

Mon – Thurs 7:00 a.m. – 9:00 p.m.
Fri – Sat 10:00 a.m. – 4:00 p.m.

BASIC SKILLS 067CE

In order to enroll in one of the English Composition Sequence courses - English 21, 26, 28, 101, 102, or 103 - students must have proof that they have met the prerequisite for that course. This proof may be:

1. an appropriate assessment score,
2. successful completion of the prerequisite course,
3. prerequisite completion form confirming successful completion of a comparable course at another college. After a computer check by Admissions, students not meeting the prerequisite for the course for which they registered will be administratively dropped.

Degree applicable for A.A.

CALCULATOR USAGE IN MATHEMATICS

The following are types of calculators which are acceptable for use in mathematics classes. A scientific calculator is the basic level that should be used in these classes. A Business Analyst calculator should be used if the student expects to be majoring in business related fields. A Graphing calculator is useful if the student is going on to higher courses in mathematics.

The list below indicates which calculators are approved for the classes offered. Where more than one calculator is listed the student can choose one of those listed.

Escalante Math and Science Program

East Los Angeles College's award-winning Escalante Math and Science Program offers disadvantaged inner-city middle and high school students academically rigorous mathematics courses to prepare them for college-level math and science careers. Escalante teachers have extensive experience and enthusiasm for teaching young people math. Tutors help students keep up with the college-level pace of the seven-week summer classes. Once students master algebra and geometry, they are able to take trigonometry, calculus and advanced calculus during their junior and senior high school years and often decrease their number of years in college.

“I’ve taught math at all levels from middle school through college,” comments Fernandez. “I have found that youngsters love math but then many have a bad experience and turn off. I try to use psychology to help students get over previously painful experiences and show them they are not the only ones to experience math anxiety. To be successful, I make my lectures friendly and don’t assume they understand. Today we can look up anything on-line, so memorization is less important than knowing how to use numbers logically. Students respond positively to math when they see how it can be used to solve every-day problems.”

MATH ADVANCEMENT PROGRAM

These courses are 8-week courses that are part of the Math Advancement Program (MAP). Math 115 is offered during the first half of the semester and Math 125 is offered during the second half. Each MAP course includes a mandatory non-credit lab component that will be scheduled on Wednesdays between 10:00 am and 3:00 pm. There is a materials fee for the program. Please see the Counseling Department for more information.

MATHEMATICS 115 5.00 UNITS

ELEMENTARY ALGEBRA

Prerequisite: Satisfactory completion of Math 110 or Math 112, or acceptable level of skill as demonstrated in the mathematics placement process.

Note 1: Students who have completed Math 113 and Math 114 may not enroll in Math 115.

Note 2: All qualified students are welcome to enroll in MAP Math 115, but be aware that you will be expected to enroll in the MAP Math 125 during the second half of the semester.

Note 3: There is a mandatory orientation the Friday before the first day of class.

René left California State University, Long Beach, after his freshman year. He needed a nurturing academic environment closer to home. René remembered enjoying Chicana(o) Studies classes he took at ELAC’s South Gate Center while attending Fremont High School and decided to return to ELAC. The friendly, small-college atmosphere and helpful instructors helped him regain confidence in his academic ability. He enrolled in ELAC’s Introduction to Criminal Justice taught by LAPD commander Mel Stevenson and was inspired to become a police officer. Two years later, René is ready to attend the police academy and perhaps continue his education in criminal justice.

Friends recommended that Karina begin her college education at ELAC after graduating from Bell High School. She chose the South Gate campus because of its location and it has become her second home. She enjoys the interaction with professors and knowing most of the other students. She has a lofty goal—after transferring, hopefully to the University of California, Berkeley, she hopes to get her BA degree and continue on to law school. Ultimately, Karina hopes to be a district attorney, public defender or practice criminal law.

“I want to be a lawyer for many reasons. First, I empathize with the families of people charged with criminal offenses and want to make sure they have excellent legal representation so innocent people are not imprisoned. Second, I want to serve my community. Mr. Stevenson, a former LAPD commander, taught several of my criminal justice courses. He used real-life experiences to illustrate his lectures and his classes were not only relevant, but very exciting.”

Jose recently won first place for his poster presentation at the Twelfth Annual Honors Research Conference held at the University of California, Irvine. He is about to graduate and hopes to continue his education at University of California, Los Angeles with the goal of becoming a psychologist. The recognition for academic achievement is the culmination of an impressive effort to use education to improve his life. Jose admits to being an indifferent high school student who came to ELAC because it was close to home. He decided to take 12 units and raise his grade point average to a 3.0 to qualify for the Honors program. He was successful and began the challenging program that stresses critical thinking and writing, and guarantees priority consideration for admission to prestigious universities.

“I have had to cope with severe family problems while attending ELAC, but I have never lost sight of my goal to become a psychologist. My teachers have encouraged me every time I have doubts and I have discovered my identity as a scholar and a person. One thing I’ve learned is that life will always have obstacles and can seem unfair. But I think my experiences challenged me to improve myself and helped me appreciate every moment of my life. I’ve been awarded three scholarships and have gained confidence from my years at ELAC that will carry me through my next challenges.”

Respiratory Therapy

As a first-year student, Conrad participated in the "Kick Butts" program sponsored by the Respiratory Therapy Club. "Our goal was to educate the public about the perils of smoking," he comments. "We used the 'carrot and stick' approach. ELAC students who gave up a pack of cigarettes at the two day campus program were given a chance to participate in a raffle for small prizes. The 'sticks' were examples of diseased lungs, a lung function test that showed smokers how much they had damaged their lungs and information on how to stop smoking. We are taught that we have a responsibility to educate the public about lung health in addition to treating respiratory and cardiac ailments. Students need to know that Chronic Obstructive Pulmonary Disease (COPD) is the third most common cause of death in America following heart attacks and cancer. Smoking and second hand smoke is the primary cause of COPD, so our mission is to use education to save lives."

"I decided to major in respiratory therapy after visiting an emergency room when I was involved in an accident," Conrad remembers. "I was very impressed by the person who took care of me. He was so professional that I thought that he was a doctor. He told me later that he was a respiratory therapist. It is a perfect fit for me because I enjoy working with people and like the hands-on aspect of applying science to helping people."

# Schedule of Classes

## Logistics 101
**Introduction to Logistics in the Nontraditional Office**

This short-term course explores the concepts of logistics in the nontraditional office setting. The emphasis is on state-of-the-art logistics technologies, procedures, and terminology relevant to the mobile workforce, worksite environment, and the 'virtual office' environment. Topics include handheld devices used in inventory and tracking, GIS (Geographic Information Systems) used in distribution, GPS (Global Positioning Satellites) used in transportation, and a survey of the logistics/warehousing industry as well as job opportunities and careers.

On-Line Courses

Students who take online classes make a commitment to log on to their classes at least three times per week. Online courses are designed for students who enjoy learning independently and cannot attend on-campus on a regular basis, and who are comfortable using a computer. Online courses are not self-paced courses; they follow the semester schedule and online students have deadlines and schedules just as classroom courses do. Online classes are academically the same as on-campus classes, and meet the same General Education and Transfer requirements as their on-campus counterparts. To take online classes at ELAC, you must first apply to the campus and go through the matriculation process.

Online classes follow the same academic calendar as regular classes. This means that they start when the semester starts. Some online classes are short term classes which have their own start dates; please check the schedule of classes on those dates: http://www.elac.edu/schedules/index.htm.

The office of Distance Education nor the Distance Education Coordinator does not provide academic counseling (http://www.elac.edu/studentservices/counseling/index.htm) or financial aid information (http://www.elac.edu/admission/finaid/index.htm).

BEFORE ENROLLING IN AN ONLINE CLASS:

- You must be a student at ELAC: http://www.elac.edu/admission/regulations.htm
- You must have completed the matriculation and orientation process: http://www.elac.edu/admission/matriculation/index.htm
- You must have a valid email registered with the campus: https://eweb3.laccd.edu/WebStudent/signon.asp
- You must enroll during your appointment date and time

DURING ENROLLMENT OF ONLINE CLASSES:

- You must register for classes using the Student Information System: https://eweb3.laccd.edu/WebStudent/signon.asp
- If you missed the regular registration period you must use the ACE portal to ADD: http://www.elac.edu/online/OnlineAdd.htm
  - Only the instructor of the course can add you to a class
  - Please direct questions about course content, requirements, and/or requests to add a course to the instructor.
  - The instructor of the course must first approve your add request
  - Once the instructor approves your add, admissions must approve your add request
  - Admissions must approve your add request
  - If admissions denies your add request, you must clear your hold with admissions
- It will 2 business days for you to access the Etudes course site

AFTER ENROLLING IN AN ONLINE CLASS:

- You must register for classes using the Student Information System: https://eweb3.laccd.edu/WebStudent/signon.asp
- If admissions approves your add request, it will 2 business days for you to access the Etudes course site

ELAC uses Etudes to teach online. Once you have taken an online class using Etudes, your username and password will be the same always (unless you change it).

Username:
- first two (2) letters of your first name,
- first two (2) letters of your last name
- followed by the last five (5) digits of your student identification number.
- Ex. Gema Perez: gepe8888

Password:
- Two (2) digits of your birth month
- Two (2) digit birth date
- Ex. January 1: 0101

For more information please contact the office of Distance Education:
- For online course listings: www.elac.edu/online/index.htm
- For the Online Help Desk
  - Email: onlinehelp@elac.edu
  - Phone: (323) 415-5313
  - Online help form: http://www.elac.edu/online/OnlineHelpForm.htm
- Please direct questions about course content and requirements, or requests to add a course to the instructor of the course.

Susana Luong enrolled in a private art college after graduating from Lincoln High School. She got off to a rocky start and dropped out after a couple of semesters, realizing that her career goals were not being met. Nevertheless, she had a hefty student loan to pay off. Susana decided to be very practical when choosing her next college and career. She researched science careers and realized they are likely to be in high demand in the future. ELAC provides the low-cost tuition and sophisticated health science program she is looking for. The MESA program enabled her to meet scientists and doctors, plus she has earned a laptop computer by participating in the community tutoring program.

“...I have received so much encouragement from my ELAC science professors. Professor Kuu, my chemistry teacher, has encouraged me to continue my education and perhaps even consider medicine. Dr. Olsen taught my anatomy class, one of the most enriching courses I have taken. I regained confidence in my ability to succeed and I am looking forward to transferring to a university program. I’ve applied to six different schools—though my number one choice would be University of California, Berkeley. I’m ready for the next step and confident that I will have a positive career outcome.”
