

Transfer Assistance & Graduation Requirements

This section contains information about programs and services designed to help you transfer and/or graduate. It also lists the courses which will meet the graduation requirements for East Los Angeles College, and the courses which meet the transfer requirements of the University of California and the California State University.

East Los Angeles College services several programs which are specifically aimed at assisting students to transfer to the University of California (UC), the California State University (CSU), and to other four-year colleges and universities. These programs include:

- The Honors Program
- The Transfer Center
- Adelante
- Puente
- Mesa

GRADUATION REQUIREMENTS

Following the transfer program summaries, this section goes on to list the major and general education requirements which must be met by students who wish to graduate by earning the Associate of Arts Degree or the Associate of Science Degree. There are two ways to meet the AA or AS degree requirements—by Plan A or Plan B—and the required coursework for each plan is described. Obviously, students who wish to earn the AA/AS degree should read these requirements carefully. If the requirements seem complicated or even confusing, please consult with a counselor to get them clarified.

TRANSFER REQUIREMENTS FOR UC AND CSU

Following the East Los Angeles College graduation requirements are two pages which list different ways you can meet the general education requirements for transferring to UC or CSU.

The first listing of transfer course requirements is known as the "IGETC" pattern. The letters stand for Intersegmental General Education Transfer Curriculum. The page lists all the

courses offered at East Los Angeles College which satisfy the general education transfer requirements for both the University of California and the California State University. The course information that is presented is no more than a simple listing what courses will transfer. You should consult with a counselor and read the applicable pages in the College Catalog to obtain further information that you should know in regard to how to transfer.

The second listing of courses applies only to students who plan to transfer to the California State University, and who wish to complete their "General Education" requirements at East LA College. Students who meet the requirements, as listed, may petition the college for certification — certification means that after transferring, the student will not have to take any other general education courses to meet CSU graduation requirements for the Bachelors Degree. Again, students should consult a counselor when planning a transfer program and read the applicable pages of the College Catalog to ensure that other important transfer requirements are met.

TRANSFER CENTER

If you are planning to continue your education at a university, you are encouraged to visit ELAC's Transfer Center.
