Signature of Applicant _____

Date _____

The East Los Angeles College / Santa Monica College Respiratory Therapy Program Application Instructions

The annual application period for the ELAC / SMC RT Program will run from the start of the fall semester through the end of the spring semester. Once accepted, the RT Program will begin in the fall semester of 2019. ***Students who are in the process of completing the last of the prerequisite requirements may submit an application to the program, provided they demonstrate proof of enrollment in all outstanding classes at the time of submission. Any applicant who does not satisfactorily complete (by providing an updated transcript as verification) any remaining prerequisite class (es) will **NOT** be considered for admission.

Admission to the program is based on the number of available clinical spaces as designated by CoARC, the program accreditation organization. Currently, the program capacity is limited to fifty (50) spaces annually. Once the number of applications exceeds the program capacity, **ALL** non-priority applications will be placed into a blind lottery draw; admitted applicants will be selected by a college administrator and Program key personnel under the guidelines established by the Office of the Chancellor of the California Community colleges. The names of the selected students will be placed on a list according to their lottery number until all names have been selected. Applications will **NOT** be accepted or will be returned if they do not meet the submission requirements listed previously.

This program provides priority placement for veterans, active duty service members and their respective spouse's under the Jobs for Veterans Act. Completed applications from U.S. active duty personnel, veterans or those people who have had a veteran's rights transferred to them will receive priority for each fall cohort and will not be placed into the lottery. Documentation of an honorable discharge (DD-214) of the veteran or active duty status is required in order to receive priority services for themselves or their spouses.

Any alternate who is not selected for admission to the Program will be given priority registration in the next available cohort. Applicants who were not selected for the current cohort year may elect to continue to wait for consideration in the next cohort year.

Applications must be submitted with photocopies of all official transcripts from every college you have attended and are transferring credit from. **ANY** outside coursework must **FIRST** be verified by the respective counseling department of the requested home campus as to transferability and degree satisfaction **BEFORE** the application may be submitted; this verification must be included with the application. Any outside (transfer) coursework deemed not transferrable or suitable to satisfy the AS degree requirements of the selected home campus must be completed or in progress before the application can be submitted.

Applications are accepted at the locations listed below (based on the desired campus of attendance). Applications mailed/delivered to the incorrect campus will **NOT** be forwarded. Please be sure to submit your application to the correct campus and have all official transcripts mailed **DIRECTLY** to the college **Admissions and Records office** of either SMC or ELAC. Hand-carried official transcripts of any kind will **NOT** be accepted by either college.

Note: Transcripts must be included with the application when submitted. Transcripts issued by institutions outside of the United States will require formal evaluation prior to submission (See each school's website for more information).

East Los Angeles College applications should be mailed to this address:

East Los Angeles College
1301 Avenida Cesar Chavez
Monterey Park, CA 91754-6099

ATTN: Respiratory Therapy Program Office, C2-126A

Hand-delivered applications are to be brought to the College Mailroom, located in G1-116, and addressed to the RT Program.
