1. Product and Company Identification

Material name: ETHYL ACETATE
Version #: 01
Revision date: 04-22-2011
CAS #: 141-78-6
Product Codes: J.T.Baker: 5541, 9260, 9278, 9279, 9280, 9282, 9284, 9429, 9828
Macron: 11652, 3442, 4988, 4992, H078, V553
Synonym(s): Acetic acid ethyl ester * Ethyl ethanoate * Acetic ether * Acetoxyethane * ETHYL ACETIC ESTER
Manufacturer: Avantor Performance Materials, Inc.
Address: 222 Red School Lane
Phillipsburg, NJ  08865
US
Customer Service: 800-582-2537
24 Hour Emergency: 908-859-2151
Chemtrec: 800-424-9300

2. Hazards Identification

Emergency overview
DANGER

Extremely flammable liquid and vapor - vapor may cause flash fire. Will be easily ignited by heat, spark or flames.

Causes eye irritation. Harmful if swallowed - may enter lungs if swallowed or vomited. Prolonged or repeated skin contact may cause drying, cracking, or irritation. High vapor concentrations may cause drowsiness and irritation of the eyes or respiratory tract.

OSHA regulatory status
This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication).

Potential health effects
Routes of exposure: Inhalation. Ingestion. Skin contact. Eye contact.

Eyes: Causes eye irritation. High vapor/aerosol concentrations may be irritating.

Skin: Prolonged or repeated contact with skin may cause redness, itching, irritation and eczema/chapping.

Inhalation: May cause irritation to the mucous membranes and upper respiratory tract. In high concentrations, vapors and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea.

Ingestion: Irritating. May cause nausea, stomach pain and vomiting. Ingestion may result in vomiting; aspiration (breathing) of vomitus into lungs must be avoided as even small quantities may result in aspiration pneumonitis.

Chronic effects: Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.

Potential environmental effects: The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

3. Composition / Information on Ingredients

4. First Aid Measures

First aid procedures

**Eye contact**
Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.

**Skin contact**
Wash off with soap and water. Get medical attention if symptoms occur. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse.

**Inhalation**
Move to fresh air. Treat symptomatically. Get medical attention if symptoms persist.

**Ingestion**
Call a physician or poison control center immediately. Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs.

**Notes to physician**
Treat symptomatically.

**General advice**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire Fighting Measures

**Flammable properties**
HIGHLY FLAMMABLE! Vapors may cause a flash fire or ignite explosively. Vapors may travel considerable distance to a source of ignition and flash back. Heat may cause the containers to explode.

**Extinguishing media**

- Suitable extinguishing media

- Unsuitable extinguishing media
  - Do not use water jet as an extinguisher, as this will spread the fire.

**Protection of firefighters**

- **Specific hazards arising from the chemical**
  - Can be ignited easily and burns vigorously. Vapor from the solvent may accumulate in container headspace resulting in flammability hazard.

- **Protective equipment and precautions for firefighters**
  - Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. Move containers from fire area if you can do so without risk. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. Some of these materials, if spilled, may evaporate leaving a flammable residue. Cool containers exposed to flames with water until well after the fire is out.

- **Special protective equipment for fire-fighters**
  - As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

- **Specific methods**
  - In the event of fire and/or explosion do not breathe fumes. Use water spray to cool unopened containers.

- **Hazardous combustion products**
  - Carbon monoxide and carbon dioxide.

6. Accidental Release Measures

**Personal precautions**
Wear appropriate protective equipment and clothing during clean-up. Keep unnecessary personnel away. Keep upwind. Keep out of low areas. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Local authorities should be advised if significant spillages cannot be contained.

**Environmental precautions**
Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

**Methods for containment**
ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Prevent entry into waterways, sewer, basements or confined areas. Dike the spilled material, where this is possible.
### Methods for cleaning up

Use only non-sparking tools. All equipment used when handling the product must be grounded.

Large Spills: Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Dike far ahead of spill for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Collect in a non-combustible container for prompt disposal.

Never return spills in original containers for re-use. Clean surface thoroughly to remove residual contamination. Clean up in accordance with all applicable regulations.

J. T. Baker SOLUSORB® solvent adsorbent is recommended for spills of this product.

### 7. Handling and Storage

#### Handling

DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. Wear appropriate personal protective equipment. Avoid breathing high vapor concentrations. Avoid contact with eyes and prolonged skin contact. Do not taste or swallow. Use only with adequate ventilation. Wash thoroughly after handling. See Section 8 of the MSDS for Personal Protective Equipment.

#### Storage

Keep away from food, drink and animal feedingstuffs. Keep out of the reach of children. Keep container tightly closed in a cool, well-ventilated place. Ground container and transfer equipment to eliminate static electric sparks. Comply with all national, state, and local codes pertaining to the storage, handling, dispensing, and disposal of flammable liquids.

### 8. Exposure Controls / Personal Protection

#### Occupational exposure limits

<table>

</tr>
</thead>
<tbody>
<tr>
<td>ETHYL ACETATE (141-78-6)</td>
<td>PEL</td>
<td>400.0000 ppm</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1400.0000 mg/m3</td>
</tr>
</tbody>
</table>

#### Engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Explosion proof exhaust ventilation should be used.

#### Personal protective equipment

**Eye / face protection**

Wear safety glasses with side shields (or goggles) and a face shield.

**Skin protection**

Wear appropriate chemical resistant clothing. Wear appropriate chemical resistant gloves.

**Respiratory protection**

Chemical respirator with organic vapor cartridge and full facepiece. Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection. Respirator type:

**General hygene considerations**

Provide eyewash station and safety shower. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

### 9. Physical & Chemical Properties

**Appearance**

Clear.
**Color**
Not available.

**Odor**
Fruity

**Odor threshold**
Not available.

**Physical state**
Liquid.

**Form**
Liquid.

**pH**
Not available.

**Melting point**
-117.4 °F (-83 °C)

**Freezing point**
-117.4 °F (-83 °C)

**Boiling point**
170.6 °F (77 °C)

**Flash point**
24.8 °F (-4 °C) Pensky-Martens Closed Cup

**Evaporation rate**
6 BuAc

**Flammability limits in air, upper, % by volume**
11.5%

**Flammability limits in air, lower, % by volume**
2%

**Vapor pressure**
12.43 kPa at 25°C

**Vapor density**
3.04

**Specific gravity**
0.902

**Relative density**
Not available.

**Solubility (water)**
100 g/l at 77°F

**Partition coefficient (n-octanol/water)**
0.73

**Auto-ignition temperature**
800 °F (426.7 °C)

**Percent volatile**
100%

**Molecular weight**
88.11 g/mol

**Molecular formula**
C4-H8-O2

**Chemical Stability & Reactivity Information**

**Chemical stability**
Stable under normal temperature conditions.

**Conditions to avoid**
Heat, flames and sparks.

**Incompatible materials**

**Hazardous decomposition products**
At thermal decomposition temperatures, carbon monoxide and carbon dioxide.

**Possibility of hazardous reactions**
Hazardous polymerization does not occur.

**11. Toxicological Information**

**Toxicological data**

**Product**
ETHYL ACETATE (141-78-6)

**Test Results**

Acute Dermal LD50 Rabbit: > 18.04 g/kg
Acute Oral LD50 Rat: 5.6 g/kg

**Sensitization**
Not a skin sensitizer.

**Acute effects**
Harmful if swallowed - may enter lungs if swallowed or vomited.

**Local effects**
Causes eye irritation. Prolonged or repeated skin contact may cause drying, cracking, or irritation. High vapor concentrations may cause drowsiness and irritation of the eyes or respiratory tract.

**Chronic effects**
Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Defatting, drying and cracking of skin.

No epidemiological data is available for this product.

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

High vapor/aerosol concentrations (attainable only at elevated temperatures) may cause central nervous system effects such as dizziness, drowsiness or headaches. Central and/or peripheral nervous system damage.

Contains no ingredient listed as toxic to reproduction

No data available to indicate product or any components present at greater than 0.1% may cause birth defects.

Moderate eye irritation. Upper respiratory tract irritation. Drowsiness and dizziness.

The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Ecological injuries are not known or expected under normal use.

Expected to be readily biodegradable.

Dispose of this material and its container to hazardous or special waste collection point. Incinerate the material under controlled conditions in an approved incinerator. All wastes must be handled in accordance with local, state and federal regulations.

Since emptied containers retain product residue, follow label warnings even after container is emptied. Residual vapors may explode on ignition; do not cut, drill, grind, or weld on or near this container. Offer rinsed packaging material to local recycling facilities.

Material name: ETHYL ACETATE

MSDS ID: E2850  Version #: 01  Revision date: 04-22-2011

Ecotoxicity: The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Environmental effects: Ecological injuries are not known or expected under normal use.

Persistence and degradability: Expected to be readily biodegradable.

Partition coefficient (n-octanol/water): 0.73

13. Disposal Considerations

Waste codes

US RCRA Hazardous Waste U List: Reference

ETHYL ACETATE (CAS 141-78-6) U112

Disposal instructions: Dispose of this material and its container to hazardous or special waste collection point. Incinerate the material under controlled conditions in an approved incinerator. All wastes must be handled in accordance with local, state and federal regulations.

Contaminated packaging: Since emptied containers retain product residue, follow label warnings even after container is emptied. Residual vapors may explode on ignition; do not cut, drill, grind, or weld on or near this container. Offer rinsed packaging material to local recycling facilities.

14. Transport Information

16. Labeling Info

Label Hazard Warning
DANGER

EXTREMELY FLAMMABLE LIQUID AND VAPOR.
Will be easily ignited by heat, spark or flames. Causes eye irritation. Harmful if swallowed - may enter lungs if swallowed or vomited. Prolonged or repeated skin contact may cause drying, cracking, or irritation. High vapor concentrations may cause drowsiness and irritation of the eyes or respiratory tract.

Label Precautions
Keep away from heat, sparks and flame. Avoid breathing high vapor concentrations. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Use only with adequate ventilation. Wash thoroughly after handling. Keep container closed.

Label First Aid
Immediately flush eyes with plenty of water for at least 15 minutes. Flush skin thoroughly with water. If gas/fume/vapor/dust/mist from the material is inhaled, remove the affected person immediately to fresh air. Get medical attention if irritation develops or persists. If ingestion of a large amount does occur, call a poison control center immediately. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

17. Other Information

NFPA ratings
Health: 2
Flammability: 3
Instability: 0
THE INFORMATION PRESENTED IN THIS MATERIAL SAFETY DATA SHEET (MSDS/SDS) WAS PREPARED BY TECHNICAL PERSONNEL BASED ON DATA THAT THEY BELIEVE IN THEIR GOOD FAITH JUDGMENT IS ACCURATE. HOWEVER, THE INFORMATION PROVIDED HEREIN IS PROVIDED "AS IS," AND AVANTOR PERFORMANCE MATERIALS MAKES AND GIVES NO REPRESENTATIONS OR WARRANTIES WHATSOEVER, AND EXPRESSLY DISCLAIMS ALL WARRANTIES REGARDING SUCH INFORMATION AND THE PRODUCT TO WHICH IT RELATES, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING WITHOUT LIMITATION, WARRANTIES OF ACCURACY, COMPLETENESS, MERCHANTABILITY, NON-INFRINGEMENT, PERFORMANCE, SAFETY, SUITABILITY, STABILITY, AND FITNESS FOR A PARTICULAR PURPOSE, AND ANY WARRANTIES ARISING FROM COURSE OF DEALING, COURSE OF PERFORMANCE, OR USAGE OF TRADE. THIS MSDS/SDS IS INTENDED ONLY AS A GUIDE TO THE APPROPRIATE PRECAUTIONARY HANDLING OF THE MATERIAL BY A PROPERLY TRAINED PERSON USING THIS PRODUCT, AND IS NOT INTENDED TO BE COMPREHENSIVE AS TO THE MANNER AND CONDITIONS OF USE, HANDLING, STORAGE, OR DISPOSAL OF THE PRODUCT. INDIVIDUALS RECEIVING THIS MSDS/SDS MUST ALWAYS EXERCISE THEIR OWN INDEPENDENT JUDGMENT IN DETERMINING THE APPROPRIATENESS OF SUCH ISSUES.
