The Helen Miller Bailey Model

Dr. Bailey served as chair of the Social Science Department from 1946 to 1973. She was an expert in Latin American History and often traveled to Mexico. She contributed immensely to the Sociology and Political Science disciplines. She published many books and her photograph and art collections were research sources in several fields. The college library was named after her in recognition of life's work. This scholarship was created to further her guidance of Latinx students, but students of all backgrounds are encouraged to apply. The selection criteria are based on the 'model' set by Dr. Bailey
