East Los Angeles College

Associate in Science in Public Health Science for Transfer Degree (AS-T) 2024-2025

The Associate of Science in Public Health for Transfer (AS-T) degree offered, by the Life Science Department, is intended for students who plan to transfer and complete a bachelor's degree in Public Health Science or a related field at a **California State University (CSU) campus**. Curriculum requirements for the AS-T in Public Health Science will prepare students for careers in public health by exposing them to epidemiology, the study of the distribution and determinants of disease and other health issues, and contemporary health issues such as emerging diseases, the impact of an ageing population in the community, and the costs of health care. Students are strongly encouraged to consult with a counselor for more information regarding university admission and transfer requirements, as this AS-T in Public Health Science may not be the best option for students intending to transfer to a particular CSU campus or to a college or university that is not part of the CSU system.

Academic Plan Code: E037924H

Degree Requirements: 60 CSU transferable units with a 2.0 GPA. Major courses must be passed with a minimum grade of "C" (or "P"). Completion of CSU GE or IGETC is required. *Complete additional CSU units, if needed, to reach 60 CSU transferable units.*

Required Core: (28-30 units)		C	IP	N
HEALTH 011	Principles of Healthful Living (3 units)			
BIOLOGY 051	Introduction to Public Health for Scientists and Health Professionals (3 units)			
Choose one from: MATH 227 or MATH 227S or PSYCH 091 or ECON 020 or BUS 015	Statistics (4 units) Statistics with Support (4 units) Statistics for Social and Behavioral Sciences (4 units) Statistics for Economics (3 units) Business Statistics (3 units)			
BIOLOGY 003	Introduction to Biology (4 units)			
CHEM 065 or CHEM 101	Introductory General Chemistry (4 units) General Chemistry I (5 units)			
PSYCH 001	General Psychology I (3 units)			
ANATOMY 001 and PHYSIOL 001 or BIOLOGY 020	Introduction to Human Anatomy (4 units) Introduction to Human Physiology (4 units) or Human Anatomy and Physiology (8 units)			

List A: Select one (3 units)				
ECON 001	Principles of Microeconomics (3 units)			
ECON 002	Principles of Macroeconomics (3 units)			
FAM & CS 021	Nutrition (3 units)			
SOC 001	Introduction to Sociology (3 units)			

Total Units for the Major: 31-33

General Education: Full completion of GE required <input type="checkbox"/> CSU GE Breadth or <input type="checkbox"/> IGETC Note: Major courses may be double counted towards general education.			
Completion of 60 CSU transferable units

Associate Degrees for Transfer Frequently Asked Questions

What is an AA-T and AS-T Degree?

AA-T and AS-T are acronyms for Associate in Arts and Associate in Science degrees that are designed specifically for transfer to the **California State University System**. The degrees are the results of Senate Bill 1440, a transfer bill that required the California Community Colleges to offer associate degrees for transfer in many of the most popular majors, and for the CSU to provide priority admission to California Community College students who have earned an AA-T or AS-T degree. These degrees can be completed in 60 transferable semester units (or 90 quarter units) and include coursework in general education, major preparation, and electives.

How are the AA-T and AS-T degrees different from the associate degrees that community colleges already offer?

Students completing an AA-T or AS-T degree receive priority admission to the CSU system. Students who have completed an AA-T or AS-T and are admitted to a **CSU major that has been deemed similar** are guaranteed admission at junior standing, and the opportunity to complete a baccalaureate degree with 60 additional semester (or 90 quarter) units. AA-T and AS-T degrees are recognized by both the California Community College and CSU systems as a measure of preparation and readiness for transfer to upper-division course work at the CSU. Students should check with a counselor to see if their major is deemed similar at the CSU campuses they plan to apply to.

What does it mean when you say “a degree with a guarantee”?

This program **guarantees** that students who earn an AA-T or AS-T degree from a California Community College will be admitted to a **California State University** campus. The campus you will be admitted to depends on several factors, such as the location of your community college, the program of study that a student intends to follow, and a student's competitiveness for admission. The program also guarantees a student will enter the CSU system at junior standing, and only need to complete 60 additional semester units (or 90 quarter units) to earn a bachelor's degree in a CSU program that has been deemed as similar.

What is the benefit of earning an AA-T or AS-T degree?

Besides the benefit of completing community college coursework with an associate degree in hand, this program also provides students with the necessary preparation to transfer to the CSU system and complete a baccalaureate degree. Students with an AA-T or AS-T degree receive admission priority and guaranteed admission with junior status to the CSU system, along with the ability to complete a baccalaureate degree with only 60 additional semester units (or 90 quarter units) in a degree program that has been deemed similar.

What are the requirements for earning an AA-T and AS-T degree?

Community college students should work with a counselor to develop an academic plan that includes the specific course requirements for their degree goals. In general, a student will be required to complete 60 transferable semester units (or 90 quarter units), which includes coursework in general education, major preparation, and elective courses. Students may complete either the CSU GE or IGETC general education pattern. Effective fall 2017, CSU GE Areas A1, A2, A3 and B4 must be completed with a grade of “C-” or higher per CSU EO 1100. All courses applied toward IGETC must be completed with a “C” or higher per the IGETC Standards. In some cases, the statewide Transfer Model Curriculum (TMC) template may limit the general education plan option. For example, the Biology, Chemistry and Environmental Science ADT's require completion of CSU GE for STEM or IGETC for STEM.

Note: CSU IGETC is not mandated per Senate Bill 1440, so students may be IGETC for UC certified without completion of Area 1C, Oral Communication. Students following this pattern should be advised that Oral Communication (IGETC 1C) is a CSU Admission Requirement. Students may be awarded an ADT degree using IGETC for UC. However, they will not be eligible for admission to a CSU campus without the 1C Oral Communication requirement. Students who elect to follow IGETC for UC will need to complete the LACCD ADT IGETC for UC Student Selection petition when petitioning for graduation. Please see a counselor for more information.
